Pradesh

EDUCATION

BTech in CSE-CS(Cyber Security), Vignan's Foundation for Science, Technology and Research GPA: 7.5

SKILLS

Languages   Python, HTML, CSS, Javascript
Frameworks   Node.js

Soft Skills   Problem Solving, Time Management, Teamwork, Communication, Leadership, Accountability

PROJECTS

Project-1:   Wsn network protocol using ns2 tool

- ☐ Created a protocol feature to optimize data transmission in a wireless sensor network.

- ☐ Retrieved simulation data from NS2 to analyze network performance.

- ☐ Implemented the Ad-hoc On-Demand Distance Vector (AODV) routing protocol library for efficient packet routing

.

- ☐ Utilized NS2's built-in visualization tools that increased the network efficiency.

Project-2: Amazon Clone using HTML and CSS

- ☐ Created a responsive user interface to replicate the Amazon homepage layout and design.

- ☐ Retrieved product data from a JSON file and displayed it dynamically using JavaScript.

- ☐ Implemented a custom CSS library for styling various components like navigation bars, product listings, and footers.

- ☐ Utilized CSS Flexbox and Grid that increased layout flexibility and reduced development time by 30%..

CERTIFICATIONS

- Google Cyber Security Professional Certificate offered by COURSERA.

- Privacy and Security in Online Social media offered by NPTEL.

- Problem Solving (Basic, Intermediate), Python Basic, Java Basic offered by HACKERRANK

EXTRA-CURRICULAR ACTIVITIES

- Participating in Coding Competitions.

- Playing Cricket.
